

Arnica Cream Booster

#PR-141

2 oz. Jar

Every Person is Unique, So Why Use Generic "One-Size-Fits-All" Products?

Just as no two people are exactly the same; two people do not get the same relief from the same product. So why should everyone use the exact same products to help with distinctly different problems?

Designed to be used with our Super Blue Stuff OTC Pain Relief Cream, **BLUESPRING** is proud to introduce our line of special boosters, allowing complete customization for each unique person. Our boosters let you decide what works best for you.

Designed Specifically To Complement Our Super Blue Stuff OTC and Super White Stuff OTC Pain Relief Creams

Does your Super Blue Stuff OTC or Super White Stuff OTC work great on your neck, but you need just a little something different on your knees? Need to do a little gardening? Planning a round of golf today? Layer our Arnica Cream Booster just where you need it, whenever you need it!

The Newest Addition to Our Booster Line of Products!

Our Arnica Cream Booster is specially designed to layer and complement our pain relief products. Arnica Cream Booster will boost Super Blue Stuff OTC and Super White Stuff OTC by adding Arnica Montana Flower extract. Long prized in traditional and homeopathic medicines for its anti-inflammatory and circulation boosting properties, Arnica in tea and ointment form has been used for centuries to help treat:

- Bruises
- Sprains
- Edema
- Cardiac ailments
- Wounds
- Hemorrhoids
- Toothache
- Sore Muscles
- Bronchitis
- Diarrhea
- Menstrual Cramps
- Fungal Infections

Use Arnica Cream Booster with our Super Blue Stuff OTC or Super White Stuff OTC, or Use it By Itself!

Arnica Cream Booster was designed to give a boost to our Super Blue Stuff OTC, but you can use it by itself too! Arnica Cream Booster will help to reduce the visible signs of:

- Bruises
- Burns
- Rashes
- Insect Bites

Made with All-Natural Arnica Montana Flower Extract Used for Centuries in Traditional and Homeopathic Medicines

Arnica is part of the family of sunflowers, and nearly 30 species can be found in different varieties all over the world. The blossom extract contains helenalin, a sesquiterpene lactone that is a major ingredient in anti-inflammatory preparations most commonly used for:

- Deep bruises or contusions
- Joint sprains
- Muscle aches or strains

The roots of the plant contain high concentrations of thymol derivatives, used as fungicides and preservatives and are used to treat:

- Wounds
- Skin rashes
- Burns

The thymol derivatives have been clinically shown to be effective vasodilators of blood vessels.

Typically, arnica preparations have been demonstrated to act as an anti-inflammatory and to assist in the body's own healing processes by increasing blood flow and decreasing fluid accumulation and swelling associated with bruising and contusions. (Holist Nurse Pract, 2008, 22(4):237-239)

Results, We Guarantee It!

At **BLUESPRING** our mission is to help our customers improve their quality of life with safe, natural, and effective health and wellness products. We seek to provide the best items made from the best ingredients available.

We are so sure that our products will do what we promise, that we back them with our **Risk Free 60-Day Money Back Guarantee**. If you are dissatisfied with any product for any reason, simply return it to us and we will either exchange it for a product of equal value, or return your purchase price, no questions asked.

Directions for Best Use:

With Super Blue Stuff OTC: Apply desired amount of Super Blue Stuff OTC to affected area per product instructions. Before Super Blue Stuff OTC has been absorbed, with fingertips apply a small amount of the Arnica Cream Booster to the same area. Arnica Cream Booster can be applied with each application of Super Blue Stuff OTC.

Without Super Blue Stuff OTC: With fingertips, apply a small amount of Arnica Cream Booster to affected area. Allow to soak in completely, or rub lightly 5-6 times to speed absorption.

Product Ingredients: Aloe Barbadensis Leaf, Purified Water, Glycerin, Arnica Montana Flower Extract, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Olea Europaea (Olive) Fruit Oil, Dimethicone, Caprylyl Glycol, Phenoxyethanol

Cautions:

- Arnica Cream Booster is for external use only
- Consult a physician if you have any skin reaction, such as rash, after using Arnica Cream Booster
- Keep out of reach of children
