- Treats and promotes healthy scalp and hair
- Detangles hair, makes hair easier to comb through when wet
- Adds protective coating around cuticle of hair to prevent further damage
- Increases blood flow to the scalp

Healthy Hair Conditioner by Blue Spring is guaranteed to give you maximum results if used properly. We have so much confidence in our Healthy Hair conditioner that we back it up with our Blue Spring 60 day money back guarantee.

The positive effects of Healthy Hair Formula by Blue Spring are:

- Gentle on Scalp
- Does not weigh hair down, leaves hair clean and conditioned
- Every human being is responsible for his own health or disease

**Directions for use:** Apply a small amount to palms, rub together and distribute through cleansed hair. Rinse.

**Directions for best use:** Use following the shampoo of your hair with Blue Spring Healthy Hair Shampoo with Emu Oil

**Product Ingredients:** Whole Leaf Aloe Vera Concentrate, Purified Water, Stearalkonium Chloride, Cetyl Alcohol, Stearyl Alcohol, Keratin Amino Acids, Panthenol, Emu Oil, Jojoba Oil, Cetrimonium Bromide, Glycerin, Sorbitol, Diazolidinyl Urea, Simethicone, Methylparaben, Propylparaben, Fragrance

**Whole Leaf Aloe Vera Concentrate** - Aloe Vera is used externally to treat various skin conditions such as cuts, burns and eczema. It is commonly believed that sap from Aloe vera eases pain and reduces inflammation.

### **Purified Water**

**Stearalkonium Chloride** - It is used as a conditioning agent that forms a protective coating around the hair cuticle. It adds shine to hair and makes hair easier to comb through when wet. It makes hair more manageable and reduces static electricity.

**Cetyl Alcohol** - Used as an emollient (skin softener), emulsifier, and thickener in creams and lotions.

**Stearyl Alcohol** - Stearyl Alcohol is found naturally in the tissues of mammals. It is used a softener to prevent chapping and drying of the skin. It is also used in lotions and creams to help better blend and thicken the other ingredients.

**Keratin Amino Acid (Proteins)** - Restores the hairs natural gloss and moisture, helps reduce static and makes the hair easier to comb. This added keratin protein forms a protective film around the hair and prevents further damaging. It brings hair back to a natural state of health.

**Panthenol** - A penetrating moisturizer, which absorbs into the skin and hair is converted into Pantothenic Acid, a B complex vitamin. Panthenol assists the skin and hair in retaining water (moisture) and also absorbs water from the air.

**Emu Oil** - Emu Oil used topically as a unique, 100% natural moisturizer. Emu oil reduces the visible signs of aging.

**Joboba Oil** - It is wonderful for the skin because it has absorption properties that are similar to our skins own sebum (skins natural oil). It is used effectively for skin and hair to: cleanse; condition; moisturize; soften; reduce wrinkles and stretch marks; lighten and help heal scars; promote healthy scalp and hair; lubricate and protect skin and hair.

**Cetrimonium Bromide** - A compound that is used as a conditioning ingredient for hair care. It is anti-bacterial and anti-fungal.

**Glycerin** - A natural humectant, meaning it attracts moisture to your skin.

**Sorbitol** - Sorbitol comes from fruit and berries. It is used to dissolve oil into water.

**Diazolidinyl Urea** - Used as a safe and effective preservative.

**Simethicone** - Used to reduce foaming.

**Methylparaben** - Used to prohibit mold.

**Propylparaben** - Used for as a preservative and to prevent microbial growth.

### **Fragrance**
